

Campbell, A., Jones, E.W., Schupbach, G. (ed.): **Annual Review of Genetics. Vol. 43.** - Annual Reviews Inc., Palo Alto 2009, 625 pp. ISBN 978-0-8243-1243-5

Annual Reviews is a nonprofit scientific publisher, so that the Annual Reviews are reasonably priced. Current individual subscriptions include online access to full-text articles, PDFs, reviews in advance (as much as 6 months ahead of print publication), bibliographies, and other supplementary material in the current volume and the prior 4 year's volumes. All articles are written by the foremost experts in the field.

The readers of *Biologia Plantarum* may find interesting the reviews: The role of mitochondria in apoptosis (C. Wang and R.J. Youle), Active DNA demethylation mediated by DNA glycosylases (J.-K. Zhu), Mechanism of auxin-regulated gene expression in plants (E.J. Chapman and M. Estelle), Maize centromeres: structure, function, epigenetics (J.A. Bichler and F. Han), Thioredoxins and glutaredoxins: unifying elements in redox biology (Y. Meyer *et al.*), The kinetochore and centromere: a working long distance

relationship (M.R. Przewloka and D.M. Glover), and Histones: annotating chromatin (E.I. Campos and D. Reinberg).

Other reviews covered in this Volume: Cell-surface variability mechanisms, Regressive evolution in *Astyanax* cavefish, Mimivirus and its virophage, Regulation of autophagy, Biomineralization in humans, Gene amplification in bacteria, Bacterial quorum-sensing network architectures, The Faconi anemia pathway, Nucleomorph genomes, Functional annotation of the mouse genome, Bmp4 and CaM1 in shaping the jaw, Nutrition and tissue growth, Genetics of hearing loss, *Drosophila* HP1 evolution and function, Programmed cell death in animal development, Roles and mechanisms of cohesion, and Mapping genetic networks.

The Annual Review of Genetics is online at <http://genet.annualreviews.org>

T. GICHNER (*Praha*)

Campbell, A., Jones, E.W., Schupbach, G. (ed.): **Annual Review of Genetics. Vol. 44.** - Annual Reviews Inc., Palo Alto 2010, 477 pp. ISBN 978-0-8243-1244-2

All articles are written by foremost experts in the field. The readers of *Biologia Plantarum* may find interesting the reviews: New insights into plant responses to the attack from insect herbivores (J. Wu and I.T. Baldwin), Protein homeostasis and the phenotypic manifestation of genetic diversity: principles and mechanisms (D.F. Jarosz *et al.*), Telomeric strategies: means to an end (D. Jain and J.P. Cooper), Arbuscular mycorrhiza: the challenge to understand the genetics of the fungal partner (I.R. Sanders and D. Croll), Genetics of lignin biosynthesis: connecting genotype to phenotype (N.D. Bonawitz and C. Chapple), Circadian control of global gene expression patterns (C.J. Doherty and S.A. Kay), and Variable tandem repeats accelerate evolution of coding and regulatory sequences (R. Gemayel *et al.*)

Other reviews covered in this volume: Enzymology of antibiotic resistance, Biofuel from *E. coli*, Bacterial

contact-dependent delivery systems, Evolution of sex chromosomes in insects, Integrins, Bacterial antisense RNAs, Medaka genetics and genomics, Rare variant analysis methods, Genome analysis in the domestic dog, Bacterial cytoskeleton, and RecQ DNA helicases in DNA repair.

Annual Reviews is a nonprofit scientific publisher, so that the Annual Reviews are reasonably priced. Current individual subscriptions include online access to full-text articles. For Institutions, online access is available for a nominal fee with the print order.

The Annual Review of Genetics is online at <http://genet.annualreviews.org>. The Annual reviews content on other related topics (Phytopathology, Cell and Developmental Biology, Biochemistry, Microbiology, etc) is available online at www.annualreviews.org.
