

"Regulation of Genome Expression in Plants"

(Special issue of Biologia Plantarum)

This issue contains contributions presented at the symposium "Regulation of Genome Expression in Plants", organized by the Institute of Experimental Botany of the Czechoslovak Academy of Sciences, at Liblice, October 19–23, 1981. The symposium was part of the 5th regular meeting of the participants of the Research Project "Regulation of Genome Expression in Plants", coordinated by professor O. N. Kulaeva, Timiryazev Institute of Plant Physiology, Moscow, within the scope of the Multilateral Agreement of the Academies of the Socialist Countries. The Meeting was attended by scientists from Bulgaria, Czechoslovakia, the German Democratic Republic, Hungary, Poland and the USSR.

Only some of the papers, presented at the symposium either as an oral communication or as a poster, have been published. All the papers have been accepted after being reviewed under the standard procedure of Biologia Plantarum.
